

Portland Timbers and Thorns Youth Soccer Leagues

BAD WEATHER INFORMATION

GAME CANCELLATIONS

If snow, ice or flooding from heavy rain is predicted for one of our Fall, Winter, or Spring league games, the League Director will make a decision as early as possible on Friday whether to cancel games. However, a sudden change in weather may mean an early Saturday morning decision to cancel. Games will be canceled when it appears that fields will be unplayable or when teams cannot travel to a game location with reasonable safety.

MULTIPLE GAME CANCELLATIONS

Information about multi-game cancellations will be distributed as follows:

- A notification will be placed on the OYSA home page.
- A notice will be placed on the League Schedule page in Affinity. Every person who views the league schedules will see this information. Notices will also appear in the Affinity mobile app.
- Emails will be sent to the team contacts listed in Affinity for every team affected by the cancellations.
 - Team contacts are expected to pass along the information to their parents and players.
- Emails will also be sent to club DOC's, presidents, and registrars of affected clubs.
 - Club officials are expected to pass along information to any teams that do not have email addresses.

SINGLE GAME CANCELLATIONS

Emails will be sent to all registered team contacts of the affected teams as soon as the league scheduler knows a game cannot be played.

If you show up at your field and the game cannot be played, please do the following:

- ***For Emergencies only***, someone will be available weekends to help manage problems. The cell number is 503-719-2985.
- Call the coach of the opposing team (if there is time before the scheduled match begins).
