Each game has a specific roster that includes both the home and away teams. Click on the Print Roster button to print your roster. Referees have been instructed to only accept rosters printed from the Affinity Registration System and that the roster needs to include both teams.

Players who are suspended for a match will have a red **R** on the line with their name and will be crossed out. Players who are out due to a concussion for upcoming matches will have a red **Rx** on the line with their name and will be crossed out. Please keep in mind that if you have more than one game on a weekend, disciplinary issues are not updated until the following week. If a coach or a player receives a red card during the first weekend game, the roster for the next game(s) will not reflect the game (or games) suspension, even if the roster for the next game(s) is printed just before the second match. Participating by an ineligible player or coach will result in a forfeit of that game, and there may be additional penalties for a player or coach who participates when they know that they are suspended. Coaches are responsible for tracking player eligibility.

Game Scoring

After your match has been played, go to the same Tournament & Schedule Apps. - Schedules/Game Scoring tab as above. You will then want to click on the box in the Score column for the game.

1 or more referees can be assigned to a game. To add referees simply scroll through the names on the "Available Referees" list and click "Add/Remove" to add/Remove the referee to this game. If the referee is not already in the system, you can add him/her by clicking "Create New Referee".

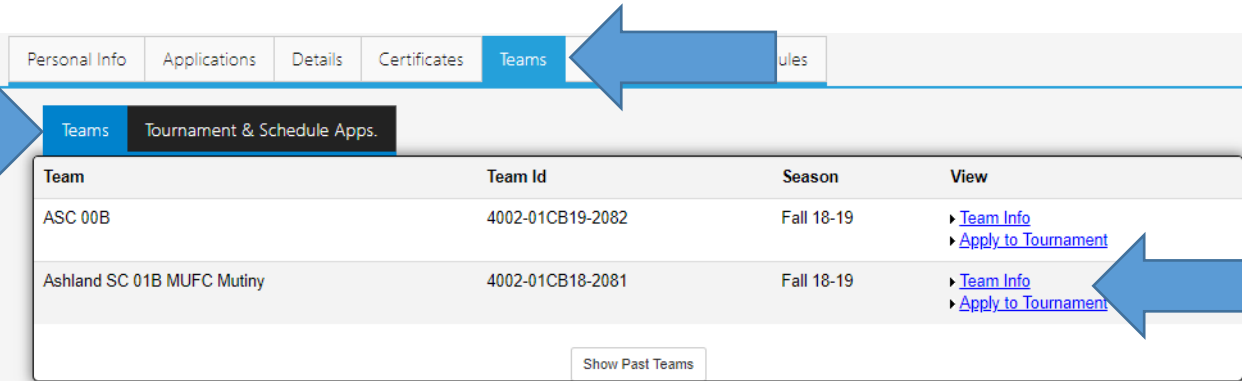

Enter your score for the match for both the home team and visiting team. DO NOT enter any cautions or ejections as those will be entered by the league administrator from information gathered from the referee report. When done, click on the Save Stats & Comments. Only a rostered adult member of the team with an Affinity login can access the Stats Update to enter scores.

Please remember that it is extremely important that all scores are entered into the system by BOTH teams after your games. As you enter scores the standings will be updated in the system. When scores are entered by both teams that differ from one another, you will see a red (CS) which means that the game has a conflicting score entered. The OYSA staff then looks at the referee report and enters the referee's reported score as the official score. If scores are not entered by Wednesday, the OYSA staff will enter the score using the referee reported final score.

Add Club Pass Player

Adding a Club Pass player to your roster means adding a player that is age legal and a player from within your club to your match roster(s). This feature allows a team to borrow a player for one match or several matches without taking them off of their initial roster. This can only be done for league play. This does not work for Cup or tournament play. Each club handles Club Pass players differently. If you have any questions regarding if your club allows the Club Pass feature to be used, please contact your club Registrar or DOC.

To borrow a Club Pass player, you will also need to have their Member Pass (players card) at the match that they will be playing in. Or you can also use the Digital Roster.

To Club Pass a player. Go to the Team – Tournament & Schedule Apps tabs. Then go to the View Tourn App. tab to the right of your team as it sits in the league.
